

NFPA 2, Hydrogen Technologies Code Plan Review & Inspection

The National Fire Protection Association, California Office of the State Fire Marshal and California Fire Prevention Officers are sponsoring training on the newly adopted NFPA 2, *Hydrogen Technologies Code*, which takes effect January, 2017. This is an overview of NFPA 2 focused on plan review and inspection of hydrogen refueling facilities and operations.

This complimentary training is made available to Authorities Having Jurisdictions representing state and local government. Registration is required, but there is no cost to attend. Limited space: Registrations are first come, first serve. Those that attend will receive a complimentary copy of the 2016 edition of NFPA 2.

Four repeat classes are offered from 8am-4pm. Only one class per person.
