► Location: San Ramon Valley Fire Protection District 1500 Bollinger Canyon Road | San Ramon, CA 94583

Course Description: This two-day course is developed for fire prevention personnel, building officials and related design professionals to obtain an understanding of laws and regulations that effect fire and life safety enforcement in California and who are concerned on a day to day basis with:

- The scope and authority of local departments relative to fire and life safety Statutes and Regulations.
- The review of Health and Safety Codes that relate to inspection responsibilities.
- The continuing need for awareness of State Fire Safety Laws and Regulations on local fire jurisdictions.
- The correct understanding and use of modifications to model Building and Fire Codes.
- The applicability and content of Title 19, California Code of Regulations.
- Relevant fire and life safety information not found in other Building and Fire Codes or code classes.
