

Presents a One-Day Seminar

CANNABIS PROCESSING

**Focusing on Code Compliance and Safety in Cannabis Extraction
and Post-Production Facilities**

Wednesday, January 30, 2019

9:00 a.m. to 4:00 p.m.

**(Registration begins at 8:30 am – Arrive early to check in and network)
North Coast Builder's Exchange, 1030 Apollo Way., Santa Rosa, CA 95407**

Synopsis: With the cannabis extraction industry emerging from underground and illegal operations into full-scale and fully-permitted chemical processing facilities, proper application of the Codes and Standards continues to provide challenges for Municipalities and facility designers/owners.

This one-day training seminar will focus on the application of the California Building Code and California Fire Code in the rapidly growing and evolving Cannabis Extraction Industry. The topics will include Code Compliance and industrial safety Best Practices in facility design, construction, and operational procedures. The session will deeply cover the new CFC Chapter 38 requirements for extraction equipment reviews and reports, facility technical reports, and the challenges faced when developing local Municipal Ordinances. The specific hazards of hydrocarbon, flammable liquid, and carbon dioxide extraction will be discussed, with additional attention in the post-production hazards and mitigation.

Instructor: Todd LaBerge, FPE is the Fire Marshal and Managing Fire Protection Engineer for the Berkeley National Laboratory. Todd's 25 years of experience in heavy industry, high-piled combustible storage, and hazardous materials operations span the public and private sectors. Todd previously managed the global Fire Protection / Fire & Life Safety program for Intel Corporation, with additional consulting service to the US Department of Defense for hazardous materials warehousing and operations design and construction. Todd currently provides Code consulting to cannabis extraction equipment manufacturers, facility designers, local municipalities, and third-party engineering review firms.

Who Should Attend: Fire and Building Department Prevention and Enforcement personnel, plans reviewers, Fire Chiefs, City Planners, City Managers, Council members, architects, cannabis extraction facility owners and operators, and agencies or private individuals responsible for obtaining construction permits and licensing for cannabis extraction facilities.

**Seminar made possible by: Hans Henneberque, H&S Associates, Fire Code Consultant
North Coast Builders Exchange**

Cost: \$175.00 (Includes cost of handouts, snacks, refreshments & lunch is provided.)
